In re Letters Patent of: Jean-March Decitre, et. al.

Patent No.: 7,271,900

Issued: September 18, 2007

For: MAGNETO-OPTICAL IMAGING METHOD  
AND DEVICE

---

**REQUEST FOR CERTIFICATE OF CORRECTION  
PURSUANT TO 37 CFR 1.322**

MS Post Issue  
Commissioner for Patents  
P O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Upon reviewing the above-identified patent, Patentee noted typographical errors which should be corrected. Each error is listed in the accompanying USPTO form PTO/SB/44.

On the face of the patent, please replace PCT/JP/2004/001602 with PCT/FR/2004/001602. The application was filed with a preliminary amendment making cross reference to this French origin PCT application, as well as with an application data sheet making reference to this French origin PCT application. In addition, even the invention declaration makes reference to this French origin PCT application. Accordingly, the reference to the JP designation of Japan is an error committed by the USPTO.

In column 5, line 26 please delete "tax get" and replace therewith -target-. The claim language never referenced a "tax get" but always made reference to a "target". Most recently, in an amendment filed in December 19, 2007, this claim was amended but not this

specific clause. That clause, as will be noted, specifically refers to a "target". Accordingly this is a PTO error as well.

Finally, in column 6, line 34, please delete "-100 Oersted and substantially -100" and replace it with -- -100 Oersted and substantially +100--. In that same amendment of February 19; 2007, this claim was amended to make reference to a range of "-100 Oersted to substantially +100 Oersted." However, t

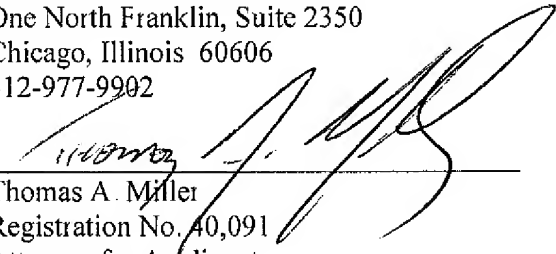

his amendment does not have seemed to have been translated to the issued patent. Accordingly this is a USPTO error as well.

Based on the foregoing, applicants respectfully request that a Certificate of Correction be issued. As each of the three errors was due to USPTO oversight, no fee is required.

Respectfully submitted,

MILLER, MATTHIAS & HULL
